Twenty-Ninth Session

Volume Eighteen

President's Foreword

We are living in an age of constant change. It is an era of transition and history has shown that nothing can arrest such changes. Governments are altering their procedures; business has undergone many transformations; labour follows a new and different pattern; individuals are living a life which contrasts greatly with the life of twenty-five years ago.

We must recognize the fact that Dentistry, too, will have to follow a different channel in order to go along with the rest of the community.

Probably the most significant change in Dentistry is its slow but gradual swing from treatment to prevention. This change is necessary if Dentistry is not to be completely inundated by backlogs of the untreated — backlogs which cannot be cared for because of personnel and time factors.

The preventive programme is as yet more of a policy than an actuality. Dentistry may adopt all the policies it pleases, but how these policies are carried out depends on the individual practicing dentist.

Let us remember the words of Ingersoll: "The hands that help are holier than the lips that pray."

LUNCHEON SPEAKER:
MR. PETE MCGILLEN, JOURNALIST

A journalist of more than 20 years experience, Pete was city editor of the Peterborough Examiner and for five years was editor of the paper's vacation edition prior to joining The Tely's staff early in 1949. He is the only full-time outdoors editor on a Canadian newspaper, writing exclusively on hunting, fishing, tourism, conservation and related subjects.

During the last year Pete has addressed more than one hundred clubs and organizations interested in the conservation—a cause dear to the hearts of millions of sportsmen throughout America. He is a director of the Ontario Federation of Hunters and Anglers, an executive of the Outdoor Writers of America and an honorary member of a number of rod and gun clubs throughout Ontario.

His column, "Outdoors With Pete McGillen," appears every Tuesday and Friday in The Tely. His intimate knowledge of the outdoors, coupled with a liberal sprinkling of humor and half-veiled pity for people who live in cities, gives his writing a rustic quality rarely found in metropolitan newspapers.

Pete still lives in the wilds of Peterborough.

ANNUAL WINTER CLINIC

Group Clinician: J. ORTON GOODSSELL, D.D.S., D.D.Sc.

"Surgical Aids to Intra-Oral Prosthesis" includes alveolectomy and other intra-oral procedures aimed at providing suitable bases for dentures. Illustrated by lantern slides.

Dr. Goodsell was born in Saginaw, Michigan. He attended the University of Michigan, graduating with his D.D.S. in 1918, and in 1934 he obtained his D.D.Sc. He is a former Non-Resident Lecturer in Oral Surgery at the University of Michigan. Dr. Goodsell is a member of the American Society of Oral Surgeons; a member of the Board of Directors, American Board of Oral Surgery; Chalmers J. Lyons Academy of Oral Surgery; and a Fellow of the American College of Dentists.

Group Clinician: P. G. ANDERSON, D.D.S., F.A.C.D.

"An Operative Review."

In recent years there have been developments in dental studies which have influenced the practice of operative dentistry. An attempt will be made at this presentation to evaluate such influences, and to select those which have contributed most to a greater degree of achievement.

Clinical and preventive operative dentistry as related to other aspects of dental practice, modifications in cavity preparation, selection of filling materials and methods of restoring lost tooth tissue will be discussed, demonstrated and illustrated.

Dr. Anderson attended the University of Toronto, graduating with his D.D.S. in 1928, in 1948 he became a Fellow of the American College of Dentists. He is Professor of Operative Dentistry, University of Toronto, where he is head of the department. He also is active in general practice.

DENTAL PUBLIC HEALTH

Dental public health this year has made tremendous strides in Toronto and area. The fellows as well as the laity have become more dental health conscious.

The group in the West has continued their good work and the East group has formulated plans to begin in the fall. The group in Scarboro is well advanced and is showing keen interest. The fellows in the North, Central and Downtown areas will be called on this year to carry on the work so capably started in the West.

The Hidden Sugar pamphlet is becoming increasingly popular and the distribution of same has been taken over by the Dental Public Health Committee of the Ontario Dental Association.

The Materials Committee of the Dental Public Health of the Ontario Dental Association has made available to those interested, a summary of information for talks to the laity. This can be obtained from the Ontario Dental Office.

Each of you can help by thinking and talking dental public health in your respective offices and taking on an assignment to speak at public meetings on this subject. A meeting will be held this fall to brief the fellows taking on speaking engagements, so that the substance of all addresses will be fundamentally the same. A number of excusal cards have been distributed to each member of the profession in Toronto. Make use of them and get a further supply from your dental dealer.

JACK V. HERBERT

REPORT OF THE SECRETARY, 1950-51

The Academy of Dentistry under the splendid leadership of Dr. Earl Bancroft has completed another successful year. The membership for the session was as follows: Paid Fellows (469), Honorary Life Members (8), Honorary Members (12).

Mr. Leo Dolan was the speaker at the Annual Dinner. His subject, "Canada's Tourist Industry" was heard with interest. The dinner was well attended.

The Stated Meetings, three in number, were held as usual at the Royal Ontario Museum. The speakers all excelled in their own fields, but the attendance at these meetings left much to be desired when one considers the total membership of the Academy.

The Winter Clinic was under the able chairmanship of the late Dr. Gordon Frawley. It was a successful day from every standpoint. Mr. Don Henshaw was the speaker at the noon day luncheon and in his usual dynamic manner held the attention of the audience to the last word of his address.

The Academy Dinner Dance was held in January and, due to the splendid work done by the Committee in charge, was a delightful evening. Those who attended were strong in their praise of this function. However, in spite of the fact that numerous members had requested that this party be re-instituted, it was poorly attended and consequently was not a financial success.

The Dental Public Health activities have continued with Dr. Edgar A. White as Chairman. The various districts are gradually being organized and reports of favourable progress have been received from time to time.

Dr. Charles McLean has continued to act as the Chairman of the Blue Cross Plan for Hospital Care. The Academy has sponsored this service for the benefit of the fellows.

The prize presented to the University of Toronto by the Academy of Dentistry was this year awarded to John Aron Michaelson.

MARK G. BOYES.

PLAN FOR HOSPITAL CARE

Several thousands of dollars have been paid for hospital charges incurred by the Fellows of the Academy of Dentistry and their families during the past seven years. Hospitalization is seldom premeditated, but when it is necessary the cost mounts rapidly. The foresight of paying regular amounts during the periods of good health is rewarded when the hospital bill, or a large percentage of it, is marked "Paid." Particularly is this foresight rewarded when the dentist is hospitalized. At that time his income ceases, his office and household expenses continue, but he is assisted with his hospital charges out of the group fund.

The plan for Hospital Care has been in operation in the Academy of Dentistry for nearly seven years, having started December 1st, 1944. For the original members, the length of hospitalization paid by the Blue Cross is 16 weeks a year for each member of his family. This is more than ample for the average illness or accident, and if the need is for a lengthy stay in the hospital, it becomes a real financial asset. Participation in the Plan becomes increasingly valuable as time goes on.

Some hospital plans are committed to pay only a certain number of dollars regardless of the fact that, with higher hospital room rates, the dollar buys less and less hospitalization. These plans require no increase in rates, for the claims are in dollars regardless of the inflation value, and have no direct relation to the stability of hospital charges.

The Blue Cross, however, is committed to paying specific hospital charges, as they occur, and for a definite period. Thus, when hospital charges are raised the Blue Cross, if it is to remain solvent, must adjust its rates to keep in line with the payments required.

Since July, 1948, there have been three rate increases, including the most recent one on July 1st, 1951. During this three-year period hospital rates have shown similar increases, and this has necessarily been reflected in the Blue Cross subscription rates.

Those who have had reason to call on the Plan have found their membership has paid rich dividends in assisting in meeting their hospital expenses and in the peace of mind which this security affords.

We still feel the Blue Cross is a valuable asset to every subscribing dentist.

Since the report of one year ago there has been collected and paid to the Blue Cross the sum of \$9,331.70.

CHARLES McLEAN, Chairman,
Plan for Hospital Care

SECOND STATED MEETING

ROYAL ONTARIO MUSEUM

8.15 P.M.

THURSDAY, FEBRUARY 14, 1952

Essayist: GORDON NIKIFORUK, D.D.S., M.Sc.

Subject: Dental Caries: Etiological Factors and Prevention

Recent experiments in the field of dental caries permit a better clarification of the caries process. The significance of these experiments will be discussed.

The mechanism of action and efficacy of some caries preventive agents will be evaluated. These agents include: fluorides, ammoniated compounds, penicillin, chlorophyll, and zinc chloride—potassium ferrocyanide (Gottlieb's impregnation technique). The value of oral hygiene measures and diets low in readily fermentable carbohydrates will be discussed.

Reference will be made to caries activity tests easily adapted to office use.

Dr. Nikiforuk graduated in 1947 from the University of Toronto. From 1948 to 1950 he did graduate work at the University of Illinois where he received his Master of Science degree in Biochemistry.

At present Dr. Nikiforuk is Associate Professor of Pedontics at the Faculty of Dentistry, University of Toronto.

ORTHODONTIC CLUB OF TORONTO

OFFICERS FOR 1951-52

President	Lorne E. Riddolls
Vice-President	H. E. Leslie
Secretary-Treasurer	J. T. Crouch

The club has arranged another exceptionally interesting programme for the coming season. The year just completed was a most outstanding one in which several orthodontists of international repute appeared as speakers.

The increased membership and full attendance meetings have sparked initiative in several directions. Most notable is the establishment of the George Grieve Memorial Library at the Faculty of Dentistry, Toronto, and the George Grieve Memorial Lecture as a feature of Canadian Dental Association convention programmes. The formation of the Orthodontic Section of the Canadian Dental Association has received much attention by the members of this group.

THE PRESIDENT'S MESSAGE TO THE ACADEMY

The Board of Governors of the Ontario Dental Association is keenly aware that for many years most of the key men on our Convention and Dental Public Health Committees have been Past Presidents of the Academy. For this we are deeply grateful and we confidently hope that it will ever be so.

May the year 1951-52 be, for you, a most successful one and may the splendid co-operation between our two Associations continue and increase.

W. K. PRENDERGAST.

DENTAL NURSES ALUMNAE ASSOCIATION OF CANADA

OFFICERS FOR 1951 - 52

Past President	Adrienne Rands

The Executive and Members of the Dental Nurses' Alumnae Association extend an invitation to all Graduate Dental Nurses to become active members of our organization. We especially wish to welcome the graduates of 5T1 into our midst. We hope that they will join in the good fellowship of all our meetings and social events.

The meetings are held the first Wednesday of each month at the I.O.D.E. Headquarters, at the corner of Spadina and Lowther Avenues.

On behalf of the Alumnae members, I should like to thank the Academy of Dentistry for its continued support of our Association, and for the privilege of presenting this message.

BERNICE BALDWIN, President.

ONTARIO DENTAL NURSES' AND ASSISTANTS' ASSOCIATION

The executive and members of the Toronto Dental Nurses' and Assistants' Association wish to announce, that circumstances over which we have no control, have caused us to change our place and night of meeting. This coming season we shall meet at the I.O.D.E., Headquarters 182 Lowther Ave., (corner of Lowther and Spadina, one bus stop north of Bloor) on the FOURTH MONDAY of the month.

We are most anxious to make these meetings a success and extend to all dental nurses and assistants a most hearty invitation to come and share our programmes with us. While we would stress the fact that these meetings are meant to promote good fellowship and sociability, we would also like to emphasize that they are intended to help us to keep up to date in our work. The 1951-52 programme lists some of the most eminent members of the Dental Profession, and other prominent speakers.

Once again it is our privilege to extend to the Academy of Dentistry our grateful thanks for all their interest and help, and to wish them a very successful year.

DOREEN BARNETT, President.

THE TREASURER'S REPORT

June 12th, 1951.

The Academy of Dentistry,
Toronto, Ontario.
Gentlemen:

We have prepared the attached balance sheet of the Academy of Dentistry as at 30th April, 1951, together with a Revenue and Expenditure Account. Subject to the following report, we hereby certify that, in our opinion, the attached balance sheet is properly drawn up so as to exhibit a true and correct view of the state of the Academy's affairs at that date, according to the explanations and information given us and is as shown by the books.

We report upon the various balance sheet items in their order as follows:

ASSETS

Cash in Bank \$ 1,720.32
Your bankers have confirmed the bank balance to us by certificate.
Dominion of Canada Bonds \$ 5,564.72

Details are shown on the face of the balance sheet. We have verified the interest revenue due from these bonds. We have examined the bonds comprising the above total.

LIABILITIES

Accounts Payable Nil

PROFIT AND LOSS

Details are shown on Schedule "A."

A comparison of the total revenues and expenses for the current year with the preceding one is as follows:

Total Revenue	\$ 5,307.71	\$ 5,010.94
Less		
Total Expenses	5,270.57	5,388.96

Surplus or Deficit for the year	\$ 37.14	\$ 378.02
--------------------------------------	----------	-----------

As we were unable to make a complete verification of all the sources of revenue, we are, accordingly, able to certify to the correctness of the Revenue Account only to the extent that it is in agreement with the books and information given us. We are

Yours faithfully,
HILL, TESKEY & CO., Chartered Accountants.
